

# Get Out

Alex Parks

Watching us over the other side  
Keeping you from being too close, not too tight  
I gotta know I can escape if it goes that way  
I need a get out, I'm looking for a get out When it all goes so right  
I expect it to go wrong  
If there's a cloud out there somewhere  
I'll be under it before too long But I never wanted anyone more than you  
Eyes so blue like an angel's tears I fall in two  
I could find my way in the desert  
It's what I do when I need a way out, I'm looking for a get out Never known why I get so scared  
Too much emotion makes me too aware  
I have to know I can be safe alone  
I always need a way out, I'm looking for a get out When it all goes so right  
I expect it to go wrong  
If there's a cloud out there somewhere  
I'll be under it before too long But I never wanted anyone more than you  
Eyes so blue like an angel's tears I fall in two  
I could find my way in the desert  
It's what I do when I need a way out, I'm looking for a get out But you feel so right and it feels so good  
I don't think I'd run even if I could 'Cause I never wanted anyone more than you  
Eyes so blue like an angel's tears I fall in two  
I could find my way in the desert  
It's what I do when I need a way out, I'm looking for a get out But, I never wanted anyone more than you  
Eyes so blue like an angel's tears I fall in two  
I could find my way in the desert  
It's what I do when I need a way out, I'm looking for a get out When I need a way out, I'm looking for a get out  
When I need a way out, I'm looking for a get out
