

Blackbird

Den of Ashes

Blackbird in the sky
I've been waiting for you

Blackbird way up high
Above the dark horizon

Blackbird on my mind
I've been waiting for you

I can see the sign
The circle that you're flying

Blackbird in the sky
please don't fly away

I've drifted on for miles
But I can't find my way

Like those I left behind
They seem so far away

Like moments lost in time
I'm tired of these changes

Take me with you flying
Take me far away
Can't you see I'm dying
Fly my soul away

Blackbird in the sky
I've been waiting for you

Blackbird way up high
See my soul a rising

I can see the light
Above the dark horizon

Blackbird on my mind
Take me away I'm dying
