

Let It Dive

...And You Will Know Us by the Trail of Dead

Now that our ties are served
As we wave goodbye
Let us not wonder whether
We are ready to take the dive
Let it dive, let it die, let it fade out of sight
Let it drag us down, let it fade
Grieve, but not grieve together
Mourn with nothing to say
Gone are those times forever
Lost are those sweet warm other days
Let it dive, let it die, let it fade out of sight
Let it drag us down, let it come between you and I
Let it dive, let it die, let it fade
Where we born to despair?
Deeds done but not forgiven
There will always be something there
As long as one of us goes on living
Let it dive, let it die
Let it fade out of sight
Let it drag us down, let it come between you and I
What is done is done, no reason to apologize
Let it dive, let it die, let it fade
