

# First Love

## Avalon

I used to be the one who would long to hear Your voice  
A child who sought to win his Father's heart  
But as I carried on, life's got a hold on me  
Now here I am a son so far from home Tell me when did I lose my first love?  
Where did the fire and passion go?  
Burn in me Your holy fire give me back my lost desire  
And restore in me the love I felt for You Can I remember how it felt?  
When they looked into my face  
And they saw the love of Jesus in my eyes  
When I looked back on my life  
And questioned where I've been  
Can I really say I've done my best for You? Tell me when did I lose my first love?  
Where did the fire and passion go?  
Burn in me Your holy fire give me back my lost desire  
And restore in me the love I felt for You Oh, where did I go?  
Oh, I'm lost and I'm alone  
Oh help me please  
Lord lead me home Father take me back let me start again  
Lord I've failed and fallen in my pride  
Lead me back to You where my life began  
Revive in me the yearning that has died Tell me when did I lose my first love?  
And where did the fire and passion go?  
Burn in me Your holy fire give me back my lost desire  
And restore in me the love I felt for You  
Oh, the love I felt for You Restore in me the love I felt for You  
Restore in me the love I felt for You  
Restore in me the love I felt for You
