

One Less Star

Barb Barton

One Less Star (Barb Barton) Cm

One more voice is gone, the forest stills the willow howls
One less color on the rainbow
One more tree will fall, the great Bear cries the Raven wails
One less holding up the sky

Piece by piece we tear apart
the greatest gift the world will know
Children from another time will ask why
One less star is in the sky

Shepherds of the world dealing out democracies
One less color on the rainbow
Heart beat sings the drum the heart is whole itâ€™s in all thing
Mitakuye Oyasin weâ€™re calling

Piece by piece we tear apart
the greatest gift the world will know
Children from another time will ask why
One less star is in the sky

One less star is in the sky
the ghost of all nations is now lying there
One less light to shine in our eyes
Hope that we care, do you think that we care?

One more voice is gone, the forest stills the willowâ€™s howl
One less color on the rainbow
One more tree will fall, the great Bear cries the Raven wails
One less holding up the sky
One less holding up the sky
One less holding up the sky
