## GusGus

I am wired  
I am tired  
Of being someone that I am notTired of showing  
Tired of going  
Along with all my liesI wish that I was so strong  
And I could tell you that  
All this time I have been wrongBeen the wrongest girl in the world  
Been the wrongest girl in the worldI have kept my face straight  
And now it's too late  
For bursting out into a songI have been distant  
Why would you listen  
To someone who's been so far, for so long?I wish I dared to touch your face  
And tell you what is behind my smile  
I have been wrongBeen the wrongest girl in the world  
Been the wrongest girl in the world
