My Love and I

Gilbert O'Sullivan

I have just one regret in life
That chance I wasted when you said goodbye
And to be honest, at the time
Though I could see I must have been blindOh what I'd give to have you back
Relive those moments once again
I'd take your hand and we would fly
Just you and me, my love and II pray to God that there will be
An end to all this hatred people are showing
If seems you cannot even breathe
Without the fear of bombs explodingWhatever happened to our world
Where making love meant holding hands
Remember how we used to try
Just you and me, my love and IMy love and I, we used to meet after work
Me all covered in dirt
And you with your hair all scattered
But it didn't matterOh for those days of present, past
Those happy moments we would share
Above the clouds, beyond the sky
Just you and me, my love and IAbove the clouds, beyond the sky
Just you and me, my love
Just you and me, my love and I
Just you and me, my love and I
