

# Lanes

## Yuna

[Verse 1]

Why do keep tellin' me you're self-destructing?  
I'm gettin' tired of your lies and your excuses  
Cause I see your photos in the club  
Havin' fun and litted up  
Someone famous on the couch  
You don't answer when I call  
Can't talk now cause it's too loud

What am I doin' with this trauma?[Pre-Chorus]

If this is love, I don't want it  
If this is love, you can keep it  
You call this love, you don't respect it  
If this is love, why am I hurting?[Chorus]

At the end of the day

While you are with me

We're on different lanes

Chasing different things[Verse 2]

And you know that I don't do that

Would you like it if I start doin' that?

Social climbin' on the daily

Don't give a damn 'bout what you think

Would you like it if I start to change?

Cause I wonder what you did to me

Takin' up space so you can be free

Cause I didn't give you what you need[Pre-Chorus]

If this is love, I don't want it

If this is love, you can keep it

You call this love, you don't respect it

If this is love, why am I hurting?[Chorus]

At the end of the day

While you are with me

We're on different lanes

Chasing different things[Bridge]

If you got a good girl then appreciate it

A wife-material then appreciate it

If you got a good girl then appreciate it

A wife-material then appreciate it[Chorus]

At the end of the day

While you are with me

We're on different lanes  
Chasing different things  
At the end of the day  
Cause I see your photos in the club  
While you are with me  
We're on different lanes  
Are you having fun?
