

# Something Is Lost

## Eskobar

When something is lost  
And it can't be found  
You think about love  
It always let you down But stories they change  
It may take some time  
Our lives rearranged  
They always let you down Why do you say, you never pray  
But you do? When it's over and out  
And you're alone inside  
You think about love  
It used to let you down Why do you say, you never pray  
But you do?
