

Love Don't Love Me

Justin Timberlake

5 foot 9, she's got legs for days
Green eyes that cut like a knife
And her own little sexy sway
No, she don't waste no time
Moving to the floor
And when she starts to move she had me
Calling your mama saying you wanna go home
Baby, tell me
Why can't I have you?
Why you running, girl?
I just wanted to love you
I love you, baby, I love you
I love you, baby, I love you
But I guess you don't have time for me
I want you, baby, I want you
I want you, baby, I want you
But I guess love don't love me, no
It's okay to be scared
'Cause this girl is super bad
She will probably be
The best thing that you never had
Don't waste no time
Trying to make her your own
'Cause what she says goes
And life points to miss
And this is the end of the road
Baby, tell me
Why can't I have you?
Why you running, girl?
I just wanted to love you
I love you, baby, I love you
I love you, baby, I love you
But I guess you don't have time for me
I want you, baby, I want you
I want you, baby, I want you
But I guess love don't love me, no
Baby, you said you loved me
But you lead me on
And the feeling's so strong about you

But I can't take it no more
So I'm gone, leave you alone
Girl, I'm gone, girl, I'm gone, oh
What's it gonna take
To get you to love me, baby?
'Cause I can't take it anymore
You're gonna be mine for sure, you know
What's it gonna take
To get you to love me, baby?
'Cause I can't take it anymore
You're gonna be mine for sure, you know
I love you, baby, I love you
I love you, baby, I love you
But I guess you don't have time for me
I want you, baby, I want you
I want you, baby, I want you
But I guess love don't love me, no
I love you, baby, I love you
I love you, baby, I love you
But I guess you don't have time for me
I want you, baby, I want you
I want you, baby, I want you
But I guess love don't love me, no
I love you, baby, I love you
I love you, baby, I love you
But I guess you don't have time for me
I want you, baby, I want you
I want you, baby, I want you
But I guess love don't love me, no
I love you, baby, I love you
I love you, baby, I love you
But I guess you don't have time for me
I want you, baby, I want you
You know what? Screw you
But I guess love don't love me, no
