

# To Play Some Music

## Journey

Say everybody and everyone  
We've been waitin', so very long  
To play some music and have some fun  
Bring some happiness to everyone  
Well come with us and try and learn what's on your mind  
Open your ears and eyes and let's see what you can find  
You're not so different, I don't mean to be unkind  
Something's unfolding if you really take the time, Lord  
So let the sun shine it's just begun  
You've given all you could to anyone  
Well don't you lose it, don't run away

It's getting stronger, day after day  
You're sittin' there, you say you're waiting for the show  
And what you have, and what you hear is what you really want to know  
You've only come here 'cause there's nowhere else to go  
We're only sorry, that we have to end the show  
Play some music  
Play some music  
Play some music  
...
