Go Away

Steve Perry

We meet again right in the middle
Of a love I knew before
Another girl, she looks a lot like you
I'm cruisin' many so are you
That's the way we both should do
I don't know why we had this rendezvous
Go away, go away
I sing goodbye to you
When the song's gone , you'll be on
On to someone new
So here we are, right in the middle
In the same place, stuck before
You'll have to find another place to play
Well I know I want to hold you right in the middle
Like I held you once before
But something says that that's a big mistake
Why won't you go away, go away?
I sing goodbye to you
When the song's gone, you'll be on

On to someone new
What you wanted, I gave it to you
In every way that you wanted to, whoa oh
Don't make your move
If you ever cared for me
Go away, go away
I sing goodbye to you
When the song's gone, you'll be on
On to someone new
Go away, go away
I sing goodbye to you
When the song's gone, you'll be on
On to someone new
Go, watchin' you, what you gonna do
Gonna do
Go, watchin' you, what you gonna do
Gonna do
