

# While I'm Alive

## STREKR

Last night all black and white when I was sleeping  
I felt shadows of emptiness around me  
Just keep telling myself to live my life  
Like everything else just keep on breathing, you'll live.  
Oh, oh, oh While I'm alive  
I got, I live my life  
While I'm alive  
The colors and the sound  
While I'm alive  
I got, I live my life  
While I'm alive The way I looked down while I was dreaming  
Overhear in the sound that of a heartbeat  
Keep on telling myself to live my life  
Fall down like everything else,  
Just keep on breathing, you'll live While I'm alive  
I got, I live my life  
While I'm alive  
The colors and the sound  
While I'm alive  
I got, I live my life  
While I'm alive While I'm alive, uh ooh, uh ooh While I'm alive  
While I'm alive  
While I'm alive  
While I'm alive
