

# Spiritual Weaponry

## Adorned Brood

This light that I see deep inside  
Songs from Valhalla they come  
Spiritual weaponry I'm tired, the end is close  
One more night and my live is done  
Spiritual weaponry The sun creeps under the shadows in gray  
Coldness is my torment  
This is the beginning of an eternal trip This is the way to my last battle  
My life fly's away  
For death embraces my last wish The desire to get more  
I'm weak but I'm a warrior  
I'm gonna fight for my honor and land The last blood in my veins  
Flows for you Wotan  
I swear yes, I swear yes  
I swear for you Wotan
