

Lost In You

Westlife

There's no more waiting
Holding out for love
You are my Godsend
That I have been forever dreaming of
My angel from above Heaven knows
I'm head over heels and it shows
I've played every field I suppose
But there's something about you
When you're around baby I have found
I get lost in you What is this feeling
I've never known before
That I should touch you
Swearing to surrender ever more
That's what I came here for Heaven knows
I'm head over heels and it shows
I've played every field I suppose
But there's something about you
When you're around baby I have found
I get lost in a wonderful daze
Lost in your wonderful ways Heaven knows I'm lost in you
Heaven knows
When you're around baby
I have found I get lost Heaven knows
I'm head over heels and it shows
I've played every field I suppose
But there's something about you
When you're around baby I have found
I get lost Heaven knows
I'm head over heels and it shows
I've played every field I suppose
Now there's something about you
When you're around baby I have found
I get lost in you
