

Naked In the Garden of Allah

Chicago

We are naked
We are innocent
We are deadly
We are broken
We are ignorant
We are lostWe are children
We are discontent
We are fatal
We are broken
We are impotent
We are lostThis televised democracy
[We seek protection, we seek protection]
Such adolescent fantasy
[We seek refuge, we seek refuge]
Random access to content
I think we're naked in the Garden of AllahWe are artless
We are violent
We are poison
We are brokenPie in the sky and gingerbread
[We seek protection, we seek protection]
We're never meant to get in bed
[We seek refuge, we seek refuge]
With wannabe intelligentsia
I think we're naked in the Garden of AllahJust remember, I'll remember
