You & I

Fightstar

You and I
Will never make it out of here
AlivePlease just let us go insane
We're travelling where spiders lay eggs
With our heads above the waste
The water broke our fallYou and I
Will never make it out of here
AliveYou and I
Will never make it out of here
AliveI can't carry on for long
I'll start to feel the pain again
Now the days are all the same
Losing sight and hold of homeYou and I
Will never make it out of here
AliveCause there will come
A day when you silence
The crowdsAnd you and I
Will never make it out of here
AliveIt feels as black as the thoughts I had
When the road was as dark as my fears
And just take comfort in knowing that
All of this ends when I am donePlease just let us go insane
There's nothing to declare but oursYou and I
Will never make it out of here
AliveCause there will come
A day when you silence
The crowdsBecause you and I
Will never make it out of here
Alive
