

Velvet Elvis

Alex Winston

Ma said, I ain't right
Clutching on you all night
But you're my, you're my guy, Elvis
Slice my starry eye
Light his coat in turpentine
Kill the bitch that bats an eye, Elvis
Chorus
When I feel your velvet, I can't help it
Hold you by your frame, whisper your name
When I feel your velvet, I can't help it
And you don't breathe, so you can't leave
And they're comin'
they're comin'
they're comin'

whoaa no (x4)
(Touch) Shackled arms are tight, cause' papa said I cross the line
Caught us in our special time, Elvis
Now it's five by five
Finger paint and circle time
I love you till the day I die, Elvis
Chorus
When I feel your velvet, I can't help it
Hold you by your frame, whisper your name
When I feel your velvet, I can't help it
And you don't breathe, so you can't leave
And they're comin'
they're comin'
they're comin'

whoaa no (x4)
Chorus
When I feel your velvet, I can't help it
Hold you by the frame, whisper your name
When I feel your velvet, I can't help it
And you don't breathe, so you can't leave
And they're comin'
they're comin'
they're comin'

whoaa no (x4)
And they're comin' (When I feel your velvet, I can't help it)
they're comin'
they're comin'

whoaa no (x2)
And they're comin' (When I feel your velvet, I can't help it)
they're comin'
they're comin'

whoaa no
