# Burn That Bridge

## Akon

1 2 3 can you hear me!
your daddy was a real nigga
real rolling stone of our time
he's the reason why you wanna be a killer
still wondering why he left you behind?!
now you a blood or crip so ain't you
fuck that nigga, this my clip that's the motto
living the life and hoping that you make it bigger
either you end up in the cage or in the ground
Bridge:
ohh just like your daddy, guess you'll just end up just like you
ohh you're living on the edge and you know that you gotta
Chorus:
burn this bridge down if you're falling across it
burn this bridge down like you're a plane in this ...
put your lighters up ohh
let it burn let it burn let it burn
put your lighters up ohh
let it burn let it burn let it burn
that bridge
your momma used to be a hooker
so many men coming in and out the house
she's the reason why you're working as a stripper
on your knees picking dollars of the ground
no way you'll rustle for that money
ain't attractive
that's little B, Lindsay Lohan, Kardashian
you ain't gonna get any surgery on your figure
they'll only bring the wrong daddy for your child

ooh oh oh
you're just like your momma and
your daughter will be just like you
ooh oh oh
you know you're living on the edge and you know that you gotta
Chorus:
burn this bridge down if you're falling across it
burn this bridge down like you're a plane in this ...
put your lighters up ohh

let it burn let it burn let it burn
put your lighters up ohh
let it burn let it burn let it burn
that bridge
let it burn let it burn
find another way to the other side
let it burn let it burn
we'll make it to the top even we have to climb
let it burn let it burn
our kids are counting on us to stay around
let it burn let it burn
put your lighters up ohh
burn that bridge down
Chorus:
burn this bridge down if you're falling across it
burn this bridge down like you're a plane in this ...
put your lighters up ohh
let it burn let it burn let it burn
put your lighters up ohh
let it burn let it burn let it burn
that bridge
