More Than a Friend

Helen Baylor

Feel like your life has ended, no where to go
Your future holds no promises, you're at an all time low
Whatever you do is just not enough, you feel like giving up
Thoughts of cashing it all in, every situation is a no win

I know someone who's there,
On Him you can cast your burdens,
To Him you can give your cares
Cause He's more than a friend
A real friend that will love you at all time
He's more than a friend, more than a friend
A real friend who sticks closer than a brother
More than a friend, He's more than a friend to me

In times I've been discouraged, thoughts of turning back
Questioning my destiny, bound up when I shouldn't be
Singing to the crowd it seemed I'd made it, inside my heart was breaking
My mountain seemed to higher climb, but He was with me all the time

I know someone who's there,
On Him you can cast your burden,
To Him you can give your care
Cause He's more than a friend
A true friend that will love you at all time
He's more than a friend, more than a friend
A real friend who sticks closer than a brother
More than a friend, He's more than a friend

How can I repay you for what you've done, I never could
How can I replace you, I never would cause you're the only one for me

More than a friend
More than a friend
He's a real friend that loves at all time
More than a friend to me
He's a real friend who sticks closer than a brother
He's my friend, yes He is, I know He is
He's more than a friend
Whenever I need Him I just call on Him
More than a mother

More than a father
More than a sister
More than a brother
More than a friend
And He's never busy, never too busy
More, He's more than a friend to me
Whenever I need Him I just call on Him
He's more than a friend to me
Oh yes thank You Jesus
More than a friend
More than a friend
More than a friend
More than a friend
