Too Much Love

Death From Above 1979

If I didn't forget you my heart would explode
Yeah, there is too much love
Yeah, way too much love
The last thing we need is to miss
The last thing we need is this
I will never regret you
It kills you to know
Yeah, there is too much love
Yeah, way too much love
The last thing we need is to miss
The last thing we need is this
Yeah, there is too much love
Yeah, way too much love
