

Sunshine

Jesse McCartney

Jesse McCartney-Sunshine

Uh oh uh oh

Oh uh oh uh oh

Uh oh uh oh

Sunshine

Uh oh uh oh

Oh uh oh uh oh

Uh oh uh oh

Sunshine

Gonna take my time n walk up on your sexy little lady

Tryin? to get me started

Work that body

Hurt me when you shake it

You got you got

What I want I want

And the way you flaunt it

Girl I?m on it loving

This wonderful feeling

Is taking me over

Your sexual healing

Is pulling me closer

I just invited

Myself into your life

And now that I got it

I?m gonna need it all the time

Sunshine

Girl I just need ya

Sunshine

I can?t live without ya

Sunshine

Sunshine all of the time

Sunshine

Girl you got this down

Sunshine

Mama give me some

Sunshine

Of your sunshine all the time

Uh oh uh oh

Oh uh oh uh oh

Uh oh uh oh
Sunshine
Now put ya fingertips up to my lips
Cuz I just wanna taste ya
With my hands all up and down your hips
You know I'm tryin' to trace ya
You got you got
What I want I want
So let me have it
This addict just needs a fix
Girl it's on tonight

This wonderful feeling
Is taking me over
Your sexual healing
Is pulling me closer
I just invited
Myself into your life
And now that I got it
I'm gonna need it all the time

Sunshine
Girl I just need ya
Sunshine
I can't live without ya
Sunshine
Sunshine all of the time
Sunshine
Girl you got this down
Sunshine
Mama give me some
Sunshine
Of your sunshine all the time
I just can't let you go
Your body's outta control
My heart is poundin' like I'm drownin' when I'm not with you
When I come up for air
I swear you answer my prayer
It's cold and dark without your sunshine oh
This wonderful feeling
Is taking me over
Your sexual healing
Is pulling me closer
I just invited
Myself into your life
And now that I got it

I?m gonna need it all the time

Sunshine

Girl I just need ya

Sunshine

I can?t live without ya

Sunshine

Sunshine all of the time

Sunshine

Girl you got this down

Sunshine

Mama give me some

Sunshine

Of your sunshine all the time

Uh oh uh oh

Oh uh oh uh oh

Uh oh uh oh

Sunshine
