## It's Not a Wonder

## **Little River Band**

When I'm down, you're always there just to see me through
You understand everything that I do
It's not a wonder that I care for you
And so babe, it's only fair we should hold on tight
Please be careful just to follow the light

I promise everything will be alrightOh, there ain't nothing sadder than missing so the one you love And there ain't nothing truer than thoughts of love

I'm thinking of when you're down

I will be there, you can count on me, it's just so easyAnyone can see it's not a wonder that you care for me
Oh, there ain't nothing sadder than missing so the one you love

And there ain't nothing truer than thoughts of loveI'm thinking of when I'm down

You're always there just to see me through

You understand everything that I do It's not a wonder that I care for you Oh no, it's not a wonder that I care
