

Give You All I Got

Allure

Yo, met this piece by the name of Sharise
She had a fly 190 resting in Jones Beach
You know when we be kickin everyday cliché
Yo boo, can I poly with you? What? Make my day
She threw her chin up in the air
Said, "Yeah"
Your style is played out black like last year What do you mean, ha?
You know what I mean Dunn
Calling me Dunn had me open like I was the one
What did I have on God Guard or Claiborne You know you had that rugged type of shit on Raekwon
Maybe Ill talk a bit, kick a few words and shit
But you drove off in some Nissan phat shit Givin me bad looks, lookin like made crooks
If I was a purse downtown I woulda been took
Yeah, from rosters, but you look like mobsters
Smokin' that weed had me nauseous like Rastus When were together
You blow my mind, ah huh
You have a way about ya
That keeps me satisfied
(Whatcha want?)
All I want to do is give you all I got If I give you all I got would you be there for me, baby? All I got
And if I keep you close to me would you give me everything I need
The way I want it to be? Thats how it should be
I wanna be there for you, boy, in every way
I just gotta tell you how you take my breath away
Oh, I wanna let you know When you walked into my life, walked into my life
I get this feeling you brought my world alive
And Im going crazy, my head is in a daze
And you amaze me, boy, why dont you stay? If I give you all I got would you be there for me, baby? All I got
And if I keep you close to me would you give me everything I need
The way I want it to be? Thats how it should be
I wanna be there for you, boy, in every way
I just gotta tell you how you take my breath away
Oh, I wanna let you know Yo, shes a fly fabulous bird
From out of nowhere
We bungalow dolo in low gear
Free parabola, the whole year Now acknowledge me God mentality, fly formality
Cut out on me and kidnapping half of your salary
We movin like this, for real now
Shut down your will power, flower Whatever you doing, dont respect ours

Slidin my work to the next man
Still Im givin you props
Now gets your karats on the next hand
When you walked into my life, walked into my life
I get this feeling you brought my world alive
And Im going crazy, my head is in a daze
And you amaze me, boy, why dont you stay?
If I give you all I got could you be there for me, baby? All I got
And if I keep you close to me would you give me everything I need
The way I want it to be? Thats how it should be
I wanna be there for you, boy, in every way
I just gotta tell you how you take my breath away
Oh, I wanna let you know
If I give you all I got would you be there for me, baby? All I got
And if I keep you close to me would you give me everything I need
The way I want it to be? Thats how it should be
I wanna be there for you, boy, in every way
I just gotta tell you how you take my breath away
Oh, I wanna let you know
If I give you all I got would you be there for me, baby? All I got
And if I keep you close to me would you give me everything I need
The way I want it to be? Thats how it should be
I wanna be there for you, boy, in every way
I just gotta tell you how you take my breath away
Oh, I wanna let you know
