

# Talk To Me

## Wiz Khalifa

Every morning as I go walking by  
I feel you looking, that's why I take my time  
    Oh oh yeah yeah  
    I can see what you want to do me  
    You can feel it, somethings gonna to break  
        Well I'm in, if you're in  
        Let's make a big mistake  
            Talk to me  
        Why won't you talk to me?  
            Can't you see?  
            I'm burning up  
                When you look like that  
                And I'm looking right back  
                Why don't you talk to me?  
            Walk with me?  
                Baby  
                When he's singing his song  
                And all the young girls sigh  
                And we'll be wearing those things  
                That make them grown men cry  
                    Oh oh yeah yeah  
                I can see what you wanna do to me  
                You can feel it, somethings gonna break  
                Well I'm in, if you're in  
                Let's make a big mistake  
                    Talk to me  
                Why won't you talk to me?  
                    Can't you see?  
                    I'm burning up  
                        When you look like that  
                        And I'm looking right back  
                        Why don't you talk to me?  
                    Walk with me  
                        Baby  
  
                Come on take me away  
                I'll be all yours from the start  
                Summer nights, summer days  
                I'll be your summer heart

Come on take me away  
I'll be all yours from the start  
Cos it's love like that (?)  
And you look like that  
    Talk to me  
Why won't you talk to me?  
    Can't you see?  
    I'm burning up  
    When you look like that  
    And I'm looking right back  
    Why don't you talk to me?  
    Walk with me  
    Baby  
    Come on take me away  
    I'll be all yours from the start  
    Summer nights, summer days  
    I'll be your summer heart  
    Come on take me away  
    I'll be all yours from the start  
    Talk to me  
    Why won't you talk to me  
    Can't you see?  
    I'm burning up  
    When you look like that  
    And I'm looking right back  
    Why don't you talk to me?  
    Talk to me?  
    Why won't you talk to me?
