

# Fighting With Fire

[Sam Phillips](#)

He wants to keep in contract  
He wants to buy the things he doesn't understand  
He wants all the credit  
He wants the rights to the soul of every man Well I'm not above him but I want to go  
Down below the surface where he lives  
Fighting with fire, fighting with fire, fighting with fire  
Money's the only thing he has, money's the only thing he has He wants to get down to business  
It's a long way down but he'll go the extra mile  
I wonder when all this started  
Who left him empty hearted when he was a child Well I'm not above him but I want to go  
Down below the surface where he lives  
Fighting with fire, fighting with fire, fighting with fire  
Money's the only thing he has, money's the only thing he has  
Money's the only thing he has, money's the only thing he has
