Left Foot Right

Feeder

Left foot, right, left foot
But I'm not going anywhere
Left hook, right, left hook
This is tearing me apart
But if I wait will you show?
As I crawl around and fall
Stuck in this old place forever
You'll be the last to know
If I stay will you come around?
You can be my only saving grace
Left foot, right, left foot
I'm calling out but you're not there
Left hook, right, left hook
We've been drifting from the start
But if I wait will you show?
As I crawl around and fall
Stuck in this old place forever
You'll be the last to know
If I stay will you come around?
You can be my only saving grace
My only saving grace
If you want it, I still want it
But if I wait will you show?
As I crawl around and fall
Stuck in this old place forever
You'll be the last to know
And if I stay will you come around?
You can be my only saving grace
My only saving grace
If you show me a way
We can leave this town today
Start a new life south together
Jump on a train and go
And if I wait you might come around
You could be my only saving grace
