

Big Fat Bass Drums

Softengine

They're famous and they're rich
They party all night long
Sounds cool but I don't feel it
Not where I'm coming from Driving through the cold night
My car and I
We fall apart
Won't somebody ease my mind My radio
Ain't supposed to make me lonely
Play me a song
Tell me, tell me
She's the one My radio
Ain't supposed to make me feel numb
But all I hear is
Shake your ass to that
Big fat bass drum Tell me something else
Play me something else
Play me something real
Tonight
Take me somewhere else
Take me somewhere else
Play me something real
When the beat drops Big fat bass drums
Chicks & shots
Party's on
Keep calm boy
Put your hands up
When the beat drops Everyone is in L.A.
But I am in love
Does anybody feel the same? My radio
Ain't supposed to make me lonely
Play me a song
Tell me, tell me
She's the one My radio
Ain't supposed to make me feel numb
But all I hear is
Shake your ass to that big fat bass drum Tell me something else
Play me something else
Play me something real
Tonight

Take me somewhere else
Take me somewhere else
Play me something real
When the beat dropsBig fat bass drums
Chicks & shots
Party's on
Keep calm boy
Put your hands up
When the beat dropsStreets are empty
The cars are gone
Everyone is in L.A.
But I am in love(Big fat bass drums)Tell me something else
Play me something else
Play me something real
Tonight
Take me somewhere else
Take me somewhere else
Play me something real
When the beat dropsBig fat bass drums
Chicks & shots
Party's on
Keep calm boy
Put your hands up
When the beat drops
Big fat bass drumsWhen the beat drops
Keep calm boy
Put your hands up
When the beat drops
