

Tranquilized

User

Stay away dont come near me
Your pain is slowly winning
By the way he stares at me really
Tells me that
He dont have a friend to hang on to Stay away dont come near me
Your will its slowing Dimming
And by the way he interrogates them
Tells me that
we got to get you Tranquilized
Sterilized
Tranquilized
And terrorized Dr. Death
He will see me
Hell fill me up with pity
And by the way he stares at me really
Tells me that
I dont have a friend to hang on to Over down
He dont care
He knows
He couldnt let it
He couldnt let it all hang out Hes got me
Tranquilized
Sterilized
Tranquilized
And Terrorized To hang on
To hold me back Tranquilized
And terrorized
Tranquilized
And terror If you dont believe me
Just hurt me
I dont bleed that way
You dont need them
They can take it all away
