

Eyes That Ring

Money Mark

Advisory - the following lyrics contain explicit language:

It's always complicated whenever you're around
Simultaneously loving you, I wear the thorny crown
Hiding in all the corners, live in a room that's bright
Maybe there is a reason that you never make a sound
Silence is the loudest thing
When you look at me with eyes that ring
I want to look into the sun, I want to feel you beaming up
You make me feel so high, you make me feel so high
I want to feel so high
Never come down
It's always complicated whenever you're around
Walking on all those winding roads, it's me you're walking on
Hiding in all the corners, live in a room that's bright
Maybe there is a reason that you never make a sound
Silence is the loudest thing
When you look at me with eyes that ring
When you look at me with eyes that ring
When you look at me with eyes that ring
When you look at me with eyes that ring
