

# Love Come Down

## Jagged Edge

Why can't I control my hands, love?  
'Cause every time that I'm around you, girl  
My body go open madness  
It's like it's got a mind all of it's own  
Baby, excuse my madness  
I don't know that you make me see like I'm an animal

I need what you got, I see where's your spot  
Feel free on your time  
Don't you wanna get 'em and make love come down  
Love come down  
Love come down

I need what you got, I see where you're spot  
You and me in the back  
I'll do what it get till make love come down  
Love come down  
Love come down

When your love come down  
I'll be looking like crazy  
When your love come down  
I'm like I told you so baby  
When your love come down  
When your love come down

Girl, when your love come down  
And your body get you shaking  
When your love come down  
Hey pause get you braking  
Your love come down  
Your love come down

I need what you got, I see where you're spot  
You and me in the back  
I'll do what it get till make love come down  
Love come down  
Love come down yeah yeah

If these walls they could talk in this room

They speak all love and passion  
All before your love come down  
Your love come down  
Make your love come down

I need what you got, I see where youâ€™re spot  
You and me in the back  
Iâ€™ll do what it get till make love come down  
Love come down  
Love come down yeah yeah

I need what you got, I see where youâ€™re spot  
You and me in the back  
Iâ€™ll do what it get till make love come down  
Love come down  
Love come down yeah yeah
