

The Whole World's Gonna Know

Mr. Big

Your secret is safe
I'll keep it on the inside
Cover you play
Makin' up a white lie
I can't complain
She's finally off of my back
I shoulda known better
She came in from the wrong side of the tracks
I'll keep my mouth shut
Nothin' else I can do
At the rate that you're going
Baby, pretty soon the whole world is gonna know
What you've done to me
The whole world is gonna know
All about it, baby
I used to be
As foolish as the last guy
I made up my mind
There'll never be a next time, no
Now that you're done
With all your fake affection
So many like me
You know they're getting wise to your deception

I'll keep my mouth shut
Nothin' else I can do
At the rate that you're going
Baby, pretty soon the whole world is gonna know
The whole world is gonna know
What you've done to me
The whole world gonna know
All about it, baby, nothing I can do
I'll keep my mouth shut
Nothin' else I can do
At the rate that you're going
The whole world is gonna know
The whole world is gonna know
What you've done to me
The whole world is gonna know

All about it, baby
The whole world is gonna know
The whole world is gonna know
What you've done to me
The whole world is gonna know
All about it, baby
