Don't Wish Too Hard

Peter Allen

Don't wish too hard for what you want
Or then you might get it
And then when you get it
Then you might wish you never got it allAnd don't go lookin' for love to come
Or then it might find you
(Then it might find you)
And then when it finds you
Then you might wish that you had never been bornHow I wished for you and now you're here
Now I wish that I could disappear and go awayOh, baby, my poor heart's repeatin', it can't stand the beatin'
That it's been takin'
I can't tell if you're fakin'
Every time you're making love to meOne day soon, I'm gonna change my tune
And without hesitating
I'll be leaving you waitingAnd you'll find that what you really wanted
And what you end up getting
You never really wanted at allOh baby, how you'll wish for me and I won't be there
So long darlin', I'll just disappear and go awayWish too hard, don't wish too hard
Don't wish too hardYou'll find, what you really wanted
And what you end up getting
You never really wanted at allHow I wished for you and now you're here
Now I wish that I could disappear and go awayDon't, don't wish too hard
(Wish too hard)
Don't, don't keep looking
Don't wish too hard, don't keep looking
Don't wish too hard for love to comeAnd then you'll find, what you really wanted
And what you end up getting
You never really wanted at all
(Don't wish too hard)Don't wish too hard, don't wish too hard
Don't wish too hard, don't wish too hard
Don't wish too hard
