

# Best of Me

## Christina Aguilera

Think I'm still, tough as nails  
never feel, never fail, but you're wrong,  
so damn wrong Feel the weight of your hate  
I still bleed my heartaches  
as you take, and you take Words cut through my skin  
Tears roll down my chin  
My walls crumbles within, hey But I'll take it all on  
and get up when I fall  
till the last curtain call But you'll never get the best of me, no you won't  
said, you'll never get the best of me, no more Aren't you tired of throwing stones  
tried to kick me when I'm down  
but you'll never get the best of me, anymore. So you're cold, made of ice,  
heart of stone, born to fight  
but I cry, I still cry Are you happy to know  
I'm unhappy, alone  
Take your shot, I'm wide open Words cut through my skin  
Tears roll down my chin  
My walls crumbles within, hey But I'll take it all on  
and get up when I fall,  
to the last curtain call But you'll never get the best of me, no you won't  
said, you'll never get the best of me, no more Aren't you tired of throwing stones  
tried to kick me when I'm down  
said you'll never get the best of me, anymore. But you'll never get the best of me, no you won't  
said, you'll never get the best of me, no more Aren't you tired of throwing stones  
tried to kick me when I'm down  
said you'll never get the best of me, anymore. Heartbroken and beaten  
Knocked down and mistreated  
I will rise undefeated  
I will not let you bring me down. Now the pain is deleted  
And I will never repeat it.  
I will rise undefeated.  
I will not let you bring me down.  
No, I won't let you bring me down. Knocked down and mistreated  
Heartbroken and beaten  
Still I rise undefeated  
'Cause you'll never get... But you'll never get the best of me, no you won't  
said, you'll never get the best of me, no more Aren't you tired of throwing stones  
tried to kick me when I'm down  
but you'll never get the best of me, no you won't, no Heartbroken and beaten

Knocked down and mistreated  
I will rise undefeated  
I will not let you bring me down. Now the pain is deleted  
I will never repeat it.  
I will rise undefeated.  
I will not let you bring me... down.
