

# Fly On the Wall

t.A.T.u.

When you're naked in the shower  
When you're sleeping for an hour  
When you're big, when you're small  
Oh, I wish i was a fly on the wall

When you're with her after midnight  
When you kiss her in the dim light  
When you break, Barbie doll  
Oh, I wish i was a fly on the wall

Wanna see who you are  
Every inch, every scar

From your head to your toes  
I would be there  
From your bed to your clothes  
I'm in the air

When you think you're alone  
I'll be down the hall  
I could see it if I was a fly on the wall  
What you do in your room  
I could see it all

You undress, I wish I was a fly on the wall, yeah, yeah (Break)

For the drama that you're drinking  
And the dark thoughts you are thinking  
And the love notes that you scroll  
Oh, I wish I was a fly on the wall

Silently I arrive  
You don't know I'm alive

From your head to your toes  
I would be there  
From your bed to your clothes  
I'm in the air

When you think you're alone  
I'll be down in the hall

I could see it, if I was a fly on the wall  
What you do in your room  
I could see it all  
You undress, I wish I was a fly on the wall, yeah, yeah  
Wish I was a fly on the wall yeah, yeah, yeah

Ever closer, ever nearer  
When you're looking in the mirror  
I would know who you call  
If I was a fly on the wall  
ooo ah ah

From your head to your toes  
I would be there  
From your bed to your clothes  
I'm in the air

When you think you're alone  
I'll be down in the hall  
I could see it, if I was a fly on the wall  
What you do in your room  
I could see it all  
You undress, I wish I was a fly on the wall, yeah, yeah  
Wish i was a fly on the wall yeah, yeah, yeah

From your head to your toes  
I would be there  
From your bed to your clothes  
I'm in the air  
What you do on your own  
I could see it all  
When you think you're alone  
I would crawl

When you think you're alone  
I'll be down in the hall  
I could see it, if I was a fly on the wall  
What you do in your room  
I could see it all  
You undress, I wish I was a fly on the wall, yeah, yeah
