How The World

Anggun

Sometimes we forget to remember
To learn higher and to aim further
But sometimes we have gone too far
Too far to understand who we are
Oh i.. don't know how
The world keeps turning
But the world keeps turning around
Don't know how, don't know how
The world keeps turning
But the world keeps turning around, around
I flew through oceans for clarity
To comprehend more 'bout you and me
I've witnessed joy, I've witnessed misery
I have seen riches, I've seen poverty

Still i.. don't know how
The world keeps turning
But the world keeps turning around
Don't know how, don't know how
The world keeps turning but the world keeps turning around,
Around around..
Still i.. don't know how
The world keeps turning
But the world keeps turning around
Don't know how, don't know how
The world keeps turning
But the world keeps turning around
Oh i
Don't know how
I don't know how
