

I'm Living Good

Dan Penn

Well my rent sure cost a lot
And one little room is all I got
But in my eyes is a castle that I live in

Oh because I'm living good
Oh I'm living good
I've got your sweet love
Darling I'm living mighty good

Sometime my old car fails to start
Seems like it always fallin' apart
But when you're in it
That old car is my limmozine

Oh yes I'm living good
Oh I'm living good
I've got your sweet love
Darling I'm living mighty good

Yes I'm living high
With you by my side
I'm living so good darling
I'm so satisfied

If I could wish upon a star
I'd wish things would stay as they're
I wouldn't change this paradise I'm living in

Oh because I'm living good
Oh I'm living good
I've got your sweet love
Darling I'm living mighty good

Yes I'm living high
With you by my side
I'm living so good darling
I'm so satisfied

If I could wish upon a star
Wish things could stay as they're

I wouldn't change this paradise I'm living in

Oh because I'm living good
Oh I'm living good
I've got your sweet love
Darling I'm living mighty good
I'm living mighty good
I'm living real good
