Someday Soon

Natalie Bassingthwaighte

Someday soon you're gonna catch that dream you've been chasing
Someday Soon
Someday Soon
Someday Soon
Someday SoonOut there in the air tonight
It's electric, it's alive
Suddenly you can see right before your eyes
A thousand candles burning brightSomeday soon
You're gonna catch that dream you've been chasing
Someday soon
They're gonna write your name in the sky
All you need is just to believe it
You know you're my hero
You're gonna be a star tonightInside feel your heart ignite
It's your time to arrive
Suddenly you can see that it's possible
And I'll be right here by your sideSomeday soon
You're gonna catch that dream you've been chasing
Someday soon
They're gonna write your name in the sky
All you need is just to believe it
You know you're my hero
You're gonna be a star tonightTake a step
One moment
Closer to the magic
It's just one heartbeat away
Don't give up
Embrace it
Breathe it in
Believe it
You know the waySomeday soon
You're gonna catch that dream you've been chasing, yeah
Someday soon
They're gonna write your name in the sky
All you need is just to believe it
You know you're my hero
You're gonna be a star tonightSomeday soon
You're gonna catch that dream you've been chasing
Someday soon

They're gonna write your name in the sky
All you need is just to believe it
You know you're my hero
You're gonna be a star tonight
