

Girlfriend (Live at Hot Festival)

Phoenix

Tired out, not a miracle in days
Deciders for the lonely
Whispering tears
You try out for nothing then you drop dead
Not a miracle in years
Leisure for the lonely
Whispering unnecessary unless you're in
Die and succeed
I say it out loud but you just don't care
Farewell, til you know me well
Farewell, til you know me well
Girlfriend
We are far from home, I am with you now
I am longing you, I am longing us two
Who bought a miracle sells these fortune tears
December's death or glory how you want it?
No, not a miracle in years
Deciders for the lonely wishing death wishes death unless
Die and succeed
I say it out loud but she just don't care
Farewell, til you know me well
Farewell, til you know me well
Girlfriend
