

# Under Attack

## Shy Girls

If my lonely lies at night,  
I wait for no one at all  
It's a feeling I got to know  
I don't know right now It would burn down all the bridges  
if it had any steam  
And its a big ten-four if you're asking for  
Wanna let me be? I'm in the zone, can you feel it?  
Right now, right now  
I'm in the zone, can you feel it?  
Right now, right now Cause love at first sight is better than love from last night  
Yeah, love at first sight is better than love from last night  
Cause love at first sight is better than love from last night  
It's all night or some nights  
That just ain't right Because your lips are under attack  
Girl, you got it bad,  
under attack  
Because your lips are under attack  
Girl you got it bad,  
under attack Under attack, girl, under attack-tack-tack  
You got it bad, girl, you got it bad, bad, bad  
Under attack girl under attack-tack-tack  
You got it bad girl you got it bad, bad, bad  
Under attack If my cells resign  
oh, I don't know where I'd be  
And if it all comes to an end,  
might as well be me  
Cause it would burn down all the bridges  
if it had any steam  
It's a big ten-four if youre asking for  
I'ma let me be Cause we ain't going nowhere;  
I got it right here Because your lips are under attack  
Girl, you got it bad,  
under attack  
Because your lips are under attack  
Girl you got it bad,  
under attack Because your lips are under attack  
Girl, you got it bad,  
under attack  
Because your lips are under attack

Girl you got it bad,  
under attackCause love at first sight is better than love from last night  
Yeah, love at first sight is better than love from last night  
Cause love at first sight is better than love from last night  
It's all night or some night  
That just ain't rightBecause your lips are under attack-tack-tack  
You got it bad, girl, you got it bad, bad, bad  
Because your lips are under attack-tack-tack  
You got it bad, girl, you got it bad, bad, badBecause your lips are under attack-tack-tack  
(Cause love at first sight is better than love from last night  
You got it bad, girl, you got it bad, bad, bad  
(Yeah, love at first sight is better than love from last night)  
Because your lips are under attack-tack-tack  
(Cause love at first sight is better than love from last night)  
You got it bad, girl, you got it bad, bad, bad  
(Yeah, love at first sight is better than love from last night)No more clubs and no more parties,  
no more drugs and no more shame  
No more clubs and no more parties,  
no more drugs and no more shame
