Merewif

Willow Beats

Go with me under the sea
We have all you'll ever need
Drink sweet salt the pain will pass
Become one with silver mass

A little longer baby
I whisper in your ear
I know your lungs are screaming
You'll learn to love it here
Embrace the haze around you
You'll never wanna leave
Your beauty mind collected
For an eternity
Don't try to fight it honey
I whisper in your ear
The water wells inside you
You'll learn to love it here
Seabed is warm and waiting
You'll never wanna leave

Go with me under the sea
We have all you'll ever need
Drink sweet salt the pain will pass
Become one with silver mass

Were getting closer baby
I whisper in your ear
Descending into pressure
You'll learn to love it here
Your grasp is loosening
You'll never wanna leave
Sweet melody echoing
For an eternity
I'm all you need my darling
I whisper in your ear
Now close your weary eyes
You'll learn to love it here
Silence is beckoning you

You'll never wanna leave

Never need another love
They don't know you up above
Silver silk will clean your soul
Sparkling for evermore
Never need another girl
Your my treasure I'm your pearl
Don't you worry about a thing
Hear the soothing darkness bring

Go with me under the sea
We have all you'll ever need
Drink sweet salt the pain will pass
Become one with silver mass

Become one with silver mass
Become one with silver mass
Become one with silver mass
Become one with silver mass
