Kettle

PRESS PLAY ON TAPE

Kettle's boiling in the other room
Didn't know it would end so soon
I'm not clinically dead
But that's the message going to my headCause I'm too young to die
And i'm too old to cry
I'm too young to die
Too young to dieKettle's whistling through my brain
Sound to drive me insane
Cause it's a journey just to turn the kettle off
Billion years ago i'd had enoughNow i'm too young to die
And too old to cry
I'm too young to die
Too young to die
