Gameface

Who are you? Do I know you? You've been locked for so long I forgot you.

I held you in. I locked you in.

You've been locked so long I forgot you.

Situations force my decisions.

Im on a stage of different reactions.

My psychological thinking hurt my emotions.

A mind growing orgainization. See with your eyes.

Feel with your mind.

I am a toy.

I am a game.

I am a tool.

Just turn me on and off.

I am a boy.

I have a name.

I am a fool.

Just turn me on and off.
