You're Quiet

Brendan Benson

You're quiet, you don't talk
You're shut down and closed off
You're like me, we're the same
I'm Brendan, what's your name?I've been a little bit down on my luck
I think you know where I'm coming from
I need a pick-up, and I don't mean truck
I think you know where to get someYou make me wanna ask you a lot of questions
Really get to know you 'cause I like you
But do you care?
'Cause I'd like to meet you thereI've been a little bit down on my luck
I think you know where I'm coming from
I need a pick-up, and I don't mean truck
I think you know where to find someOh, make up your mind
Just say the word
And I'll be your jailbirdWhat'chu gonna do now?
What'chu gonna do now?
Now that you, now that you
