Death Is In Love With Us

Him

I know it hurts too much
I know that you're scared
I know you're running out of trust
Wishing you were deadIt's in your misery, you're not alone
So come share your tears with me
And witness it all go wrongI know it and I feel it
Just as well as you do, honey
It's not our fault if death's in love with us, oh oh
It's not our fault if the reaper holds our hearts, oh41 plus 66.6 equals our loss
We're breathing only to fade away
We're running just to get caughtWhat love's lies blessed?
What love's light cursed?
Just fear for the best, hope for our worstI know it and I feel it
Just as well as you do, honey
It's not our fault if death's in love with us, oh oh
It's not our fault if the reaper holds our hearts, ohDeath's in love with us, oh oh
The reaper holds our hearts, oh oh
Death's in love with us, oh oh
And the reaper holds our hearts, oh ohI know it and I feel it
Just as well as you do, honey
It's not our fault if death's in love with us, oh ohYes I know it and I feel it
Just as well as you do, honey
It's not our fault if death's in love with us, oh oh
It's not our fault if the reaper holds our hearts, oh ohIt's not our fault if death's in love with us, oh oh
It's not our fault if the reaper holds our hearts, oh
