

# At the Zoo With Dr. Mengele

## Incircles

children of the sand burn and rape the land  
they are laughing 'cause their heads are empty  
stomachs full I am the bomb creator, I am the navigator  
I am the face breaker, I am..drop the bomb, show them God the things that keep us sane course through our veins  
for days  
they are laughing 'cause we hate what we became  
it's just not the same I am the bomb creator, I am the navigator  
I am the facebreaker, I am..drop the bomb, show them God
