

Simply Irresistible

Ginuwine

Oh, oh, yeah, baby
Oh, oh, yeah, oh Hotter than New Orleans
In summertime you're so fine
You walk by now I wish
I could press rewind You sounding like a disco ball
I can't say no
(Can't say no)
We probably could break some laws
And not be wrong Simply irresistible
That is you, that is me
Can't wait to get physical
I want you, you want me Now it's getting critical
I need you, you need me
I'm so tired of typical
And that ain't you, that ain't me Picture us in Florida
In the big beach house, full moon out, hey
We probably would melt the couch
When we sit down And probably take it to the floor
Back and forth
(Back and forth)
We light up the room like we had a torch Trust me when I tell you
I anticipate us as one
Next we'll break to see your face
See my face, I'm for real My good taste and your good shape
They relate, no question
Hold my hand, I'll hold your waist
We'll be straight face to face Simply irresistible
That is you, that is me
Can't wait to get physical
I want you, you want me Now it's getting critical
I need you, you need me
I'm so tired of typical
And that ain't you, that ain't me Simply irresistible
That is you, that is me
Can't wait to get physical
I want you, you want me Now it's getting critical
I need you and you need me
I'm so tired of typical
And that ain't you and that ain't me Hotter than New Orleans

At twelve o'clock we so high
We turn heads at every spot
With what we've got
(What we've got)I know we got something good, something real
Us as one, just ain't fair
No way 'cause we'reSimply irresistible
That is you, that is me
Can't wait to get physical
I want you, you want meNow it's getting critical
I need you, you need me
I'm so tired of typical
And that ain't you, that ain't meSimply irresistible
That is you, that is me
Can't wait to get physical
I want you, you want meNow it's getting critical
I need you, you need me
I'm so tired of typical
And that ain't you, that ain't meSimply irresistible
That is you, that is me
Can't wait to get physical
I want you, you want meNow it's getting critical
I need you, you need me
I'm so tired of typical
And that ain't you, that ain't me
That is you, that is me
Can't wait to get physical
I want you, you want meNow it's getting critical
I need you, you need me
I'm so tired of typical
And that ain't you, that ain't me
