Freedom

Freedom by The Katinas

Verse 1: .....????.....this sense of liberty
I think its safe to say its taken over me
For this we fought so long it wasn't all for nothing
Trails & tribulations they come to make us strong

B Verse: Now more than ever we stand
We locked together within
We've been united by faith
Not gonna run away now
So with the spirit of hope
We'll find our victory
It lies inside of our souls
Just believe

Chorus: Raise your hands to the sky
If you feel what I'm feeling
To the end we will fight
We will fight for our freedom

Verse 2: Now let the darkness fall shadows are closing in
The air is getting cold depression settle in
Don't wait until its over time will not delay
So stop procrastinating time to break the chain

B Verse: Let's come together .....?
The world is watching
Our faith is even stronger now
Despite all the opposition
So with the spirit of hope
We'll find our victory
It lies inside of our souls
Just believe

Chorus: Repeat (x2)

Bridge: Oh ho ho oh ho ho oh ho ho (x8)

Chorus: Repeat
