

# Spend My Life

## Slaughter

I've been livin' in this lonely world  
Wishin' I could find someone to love  
Hopin' someone would come from above  
Change my life Then I noticed you there  
You were my angel sent from my despair  
I know that you are the female who cares I wanna spend my life with you  
Well yeah, I wanna spend my life with you  
Yeah, with you, baby I wanna spend my life with you  
You know [Incomprehensible] angel  
I wanna spend my life with you  
Oh yeah, only with you, say yeah
