

# White Nigger (Alternate Version)

## AVENGERS

Well, you don't know what you want  
Working everyday in your restaurant  
Your life is slipping out of control  
Lose your job, gonna lose your soul Now boy, young and white  
So you wanna make it bigger  
Boy, you better watch your step  
White nigger When you were young you had such big plans  
Such big ambitions, gonna be a good man  
I say look at you now, oh what a coward  
Living your life but you don't know how to live Boy  
(Little boy)  
Young and white, so you try to make it bigger  
Boy  
You just don't understand do you, white nigger? Work like a devil, work like a dog  
Where does it get you, where do you go? Ooh  
Work for the money, work for the show  
Work for the people that you don't know I see you driving around in your car  
Pretend you're not what you really are  
Just look in the mirror, look in your eyes  
What you discover will be no surprise Something is missing, something's wrong  
You got your money but something's gone  
Something you had right from the start  
You should have listened to your heart Work like a dog, work like a slave  
Work like a devil, and what have you made ohh no, no, no  
Work like a dog, work nine five  
Working, shaking his hand, you're staying alive ohh no, no  
Where you gonna go? Work, work every day  
Work your life away and sure it pays  
But where does it get you, where are you now?  
Come on, white nigger
